Governor Wolfley has drawn up a bill which he proposes to have introduced in Congress, and which he has sent all over the Territory asking the opinions of different people on it. Not being an attorney, nor conversant with the statutes of the Territory, we do not feel competent to express an opinion on some of the measures in the proposed bill. Concerning his views on the Mormon question, we think that the great majority of the people of the Territory will approve of them, especially that portion that is Republican in politics. As to his profound desire to straighten out the tangled condition of affairs, we think it is about time that he should endeavor to repair some of the mischief he and his fellow conspirators accomplished in their successful efforts to defeat the holding of a constitutional convention. The present chaotic condition of our financial affairs, and doubt cast on the legality of a large portion of our laws, is due entirely to the machinations of a ring of political tricksters who knew that in the event of Arizona becoming a State they would be relegated to oblivion as far as politics is concerned. In their effort to prove the convention illegal they had to go back for nearly ten years, upon all the laws enacted during that period, cast doubt on the appropriation bill and raise Cain generally. Notwithstanding it was pointed out to them that such a course would result in great damage to the material interests of the Territory, they persisted because the holding of a constitutional convention had to be prevented, no matter what it cost. Well, they succeeded. Wolfley is still in camp, and Clark Churchill Attorney General. But if they should ever come up before the people for an elective office may the Lord help them, for nobody else will.

Two marriage of the heir apparent to the throne of Greece with a sister of the Emperor of Germany may be looked upon as another move of Bismarck's to make German influence predominant in the politics of Europe. Greece may be considered as only a pawn in the political game of chess that is continually going on in Europe, but at times a pawn is a very valuable piece.

Summer tourists are very much excited because the poor Indians are so fully neglected by the churches and that the religious side of their nature is not cultivated. Arizonans are also galled and shed bitter tears for the same reason, and weep exceedingly large emerald tears because all the Apaches are not "good Indians."

In Tombstone roses are blooming in the door yards and gardens, while our dispatches bring tidings of snow storms in the Western States, and soon we shall hear of snow blockades all over the Western and Northern States. People who have got enough of snow and ice had better come to Arizona and enjoy life.

A Hail Old Man
A hale old man, Mr. Jas. Wilson of Allens Springs, Ill., who is over sixty years of age, says: "I have in my time tried a great many medicines, some of excellent quality; but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhea Remedy. It is truly a wonderful medicine." For sale by H. J. Felt.

An Attempt to Commit Suicide.

ROCKFORD, Ill., Nov. 1.—A sensation was created here this morning by Ernest Potter, of San Jose, California, attempting to commit suicide. His wife left him two weeks ago and came here to stop with her sister, Mrs. Geo. Silley. Potter arrived last night and tried to effect a reconciliation but was not successful and shot himself. The doctors probed for the ball near the heart, but could not find it. The case is critical. He has willed his wife a large amount of property. The wife is a daughter of Henry Sears, of San Jose, a very wealthy man, whose family reside here. The wife refuses to see her husband unless he is going to die.

The Walnut Grove Murder.
PRESCOTT, Ariz., Nov. 1.—Sheriff O'Neill returned to-day from the scene of the Walnut Grove murder, having in custody Margarita Arroz, the Mexican woman employed as cook for Peter Verdier. The officers found evidence enough to warrant her arrest as being a participant in the murder.

Governor Prince's Annual Report.
WASHINGTON, Nov. 1.—Gov. Prince of New Mexico, in his annual report calls special attention to land titles, which he says the late surveyor general made worse than they were before, by taking up the case which was settled 25 years ago, and referring to the decision of the surveyor-general who had passed upon them. The Governor says that so long as the titles are uncertain, so long is the prosperity of the Territory retarded. The Governor says that while the native population of New Mexico are illiterate, the white population is not so to any extent. On the subject of irrigation, the Governor says: "People say it is as much business of the government to render the immense areas now useless for cultivation, as it is to improve harbors or reservoirs." Cattle raising, the Governor says, has been in a depressed condition throughout the year on account of low prices.

Dumplings with Royal Baking Powder

No desert is more delicious, wholesome and appetizing than a well-made dumpling, filled with the fruit of the season. By the use of the Royal Baking Powder the crust is always rendered light, flaky, tender and digestible. Dumplings made with it, baked or boiled, will be found as wholesome, and may be served as a most perfect luncheon.

A Bug in the Ribs
If on the right side and lower part of the diaphragm, though playfully meant and delivered, is calculated to evoke profanity from a chappy whose liver is out of order. When that region is sore and congested, pokes seem fiendish. Look at a man's countenance ere you prod him under the ribs. If his skin and eyeballs have a sallow tinge, you may infer also that his tongue is furred, his breath apt to be sour, that he has pains not only beneath his ribs, but also under the right shoulderblade. Also, that his bowels are irregular and his digestion impaired. Instead of making a jocose demonstration on his ribs, recommend him to take, and steadily persist in taking, Hostetter's Stomach Bitters, the finest anti-bilious and alternative medicine extant. Incomparable is it, also, for dyspepsia, rheumatism, nervousness, kidney trouble, and fever and ague.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States and has been used for over forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child of pain, cures dysentery and diarrhoea, griping in the bowels, and wind colic. By giving health to the child it gives rest to the mother. Price 25 cents a bottle.
